Experienced React Engineer with over 10 years of expertise in front-end development, specializing in building interactive, mobile-first websites and applications. Proficient in using React, JavaScript, and modern front-end technologies to create seamless and user-friendly interfaces. Adept at collaborating with cross-functional teams, integrating front-end solutions with backend systems, and adhering to web accessibility standards. Consistently delivers high-quality, performant, and visually appealing solutions that meet business and user needs.

EXPERIENCE

WALMART | Bentonville, AK 2021 – Present

SENIOR SOFTWARE ENGINEER

- Led front-end development for React applications, creating cohesive and intuitive user interfaces.
- Collaborated with backend developers to seamlessly integrate React components with backend APIs.
- Partnered with the UI/UX design team to translate designs into functional, interactive elements using React.
- Ensured code quality and consistency across multiple teams by maintaining a unified codebase and adhering to best practices.

CENGAGE LEARNING | Mason, OH 2018 – 2021

SENIOR SOFTWARE ENGINEER

- Spearheaded the development of high-performance React applications for company websites.
- Developed user-friendly interfaces that significantly enhanced user engagement and satisfaction.
- Worked closely with design teams to implement responsive, mobile-first design principles using React.
- Established web accessibility standards and best practices across the company's web applications.

CARDINAL SOLUTIONS | Mason, OH 2017 – 2018

SENIOR II, APPLICATION ENGINEER

- Responsible for end-to-end development of React-based applications from conception to deployment.
- Collaborated with cross-functional teams to create cohesive and responsive applications using React.
- Developed and implemented company-wide responsive design guides, ensuring consistency across all projects.
