Experienced UI/UX Engineer with over 10 years of expertise in developing interactive, mobile-first websites and applications. Proficient in leading projects from concept to completion, collaborating with cross-functional teams, and creating visually stunning, user-centric designs. Adept at establishing web accessibility standards and implementing responsive design principles, ensuring seamless user experiences across devices. Consistently delivering high-quality, visually appealing solutions that meet company and client specifications.

EXPERIENCE

WALMART | Bentonville, AK 2021 – Present

SENIOR SOFTWARE ENGINEER

- Led the UI/UX development for internal Android and React applications, ensuring cohesive and intuitive user experiences.
- Collaborated with backend developers to integrate frontend interfaces with backend systems.
- Partnered with the UI design team to create visual and interactive elements for both Android and React web applications.
- Coordinated across multiple teams to maintain a consistent codebase standard across various markets.

CENGAGE LEARNING | Mason, OH 2018 – 2021

SENIOR SOFTWARE ENGINEER

- Led front-end development for company websites, focusing on high performance and user-friendly interfaces.
- Spearheaded the creation of websites from scratch, significantly increasing user engagement.
- Collaborated extensively across teams to develop cohesive and visually appealing websites.
- Developed and implemented a responsive, mobile-first design guide and established company-wide web accessibility standards.

CARDINAL SOLUTIONS | Mason, OH 2017 – 2018

SENIOR II, APPLICATION ENGINEER

- Responsible for front-end development of company applications, from conception to completion.
- Collaborated across teams to create cohesive and responsive applications.
- Created and implemented responsive, mobile-first design guides for the company.

JB HUNT | Bentonville, AK 2016 – 2017

SENIOR PROGRAMMER SPECIALIST

- Led front-end development of company websites, focusing on responsive design and web accessibility.
- Created websites from start to finish, collaborating across teams to ensure cohesive development.
- Built the responsive, mobile-first design guide for the company.
